SUSTAINABLE DEVELOPMENT GOALS

What is United Nation Sustainable Development Goals?

The United Nation Sustainable Development Goals (UNSDGs) are a universal call to action, established in 2015, to end poverty, protect the planet, and ensure prosperity for all by 2030. Comprising 17 interconnected goals, they provide a shared blueprint for peace and prosperity, addressing a range of global challenges, including those related to health, inequality, climate change, and environmental degradation. The SDGs are a testament to the global commitment towards creating a better, more sustainable future for all.

Our efforts towards United Nation Sustainable Development Goals (UNSDGS).

At KP Sanghvi, we have committed ourselves to making meaningful contributions to the (UNSDGs). Our journey toward this noble cause has just begun, and every day, we are taking significant steps in that direction. Presently, we are actively working toward 14 of these important goals and have a clear vision to extend our efforts to encompass all 17 goals in the future.

Environmental, Social and Governance Highlights

United Nations Sustainable Development Goals: Presently, we have achieved 14 of the 17 United Nations Sustainable Development Goals.

Women's Empowerment: In 2010, KP Opened The first woman-only diamond polishing factory helping women be independent and have a livelihood within India's patriarchal society

Health Care: Since the year 2000, KP Opened Hospitals to provide high-quality care and Donated 1200 medical equipment for differently abled camp, 400+ Free Eye Checkup and 82 cataract operations.

Animal Welfare Center: We invest \$1.8 million annually in animal welfare, 185-acre cow shelter along with a veterinary hospital that houses and aids around 6300 stray cattle.

Education: Since 2013, KP has opened Primary School Serving School kids from age 5-10 in rural areas, Higher education College addressing education gap in area as well as a Law School

Clean Energy: Committed to renewable energy, we source 1/3 of our power from solar and wind energy & converted existing factory facilities to aligning with LEED (Leadership in Energy and Environmental Design) rating standards, striving towards achieving net-zero emissions.
