

STEP INTO A WORLD OF ANCIENT WONDER

Transport yourself back in time with the exclusive Jurassic Collection™. Featuring rings inlaid with authentic fossil dinosaur bone and engravings of ancient life.

DINOSAUR BONE:

Mossy Green – Rare green colored dinosaur bone containing chlorite, chromium or copper trace mineral. From Southern Utah.

Crimson Red – Cretaceous Theropod dinosaur bone from the Hell Creek formation.

Deep Grey – Lambeosaurus (duck billed) dinosaur bone.

Tan Brown – Unknown species, from Moroccan fossil deposits.

Jewelry Innovations is your source for the finest quality bands, backed by our industry leading customer service and warranty.
